

HUSQVARNA DE 120 SH

COMPACT, VERSATILE DUST EXTRACTOR

DE 120 SH is a versatile H-class dust extractor that is compact and easy to transport, yet powerful. Designed for use with larger handheld power tools, floor and hand grinders, scarifiers and more, its performance and sturdiness make DE 120 SH ideal for demanding, heavy-duty applications. Its high water-ingress protection enables fast and efficient decontamination.

Included

- ✓ Pre filter
- ✓ HEPA essential filter
- ✓ Longopac® bag
- ✓ Hose kit
- ✓ Wand
- ✓ Floor tool
- ✓ Dust cap

Not included

- ✗ Adapter kit

FEATURES

A FOCUS ON SAFETY

The dust extractor complies with the latest H-class standards for dust extractors intended for heavy-duty use. It contains a HEPA filter (with EN1822 certification) that is separated from the pre-filter. A visual filter alarm indicates when it is time to clean the filter. Cleaning can be done by simply pressing a button.

OPTIMISED ACCESSORY RANGE

The entire accessory range is optimised for construction. It includes a sturdy floor tool with a large opening that can handle coarse dust. The wand, hoses and adapters with transport caps ensure smooth operation and transport. For even easier transport convenience, optional hose bags are available.

THOROUGHLY TESTED ESSENTIAL FILTERS

To verify that particles are always filtered correctly, all essential filters are tested individually at maximum airflow capacity provided by the machine. Each filter complies with the filtration level at maximum airflow stated on the essential filter.

FEATURES

EASY TO CLEAN AND MAINTAIN

The machine's high water-ingress protection means it can be easily cleaned and decontaminated.

EASY TO TRANSPORT

The dust extractor is easy to transport thanks to its compact size and low weight. Smart details such as lifting hooks, hose, wand and floor-tool attachments and the ability to drive it on its two wheels make it smooth to operate and manoeuvre.

IMPROVED LONGOPAC® ATTACHMENT SYSTEM

The easy-to-use Longopac® attachment system with V-shaped tray ensures easy mounting. A special pleated cover keeps dust from gathering in the folds.

TECHNICAL SPECIFICATIONS

ALL SPECIFICATIONS	DE 120 SH 230 V 1 ph EU 970 85 00-01
MOTOR	
Rated input power	1.8 kW
Phases	1 ph
Voltage	220-240 V
Rated current	8 A
Frequency	50-60 Hz
Max. vacuum	200 mbar
Power source	Corded
PRODUCT DATA	
Airflow	380 m³/h
Airflow at turbine	430 m³/h
DIMENSIONS	
Product size length	815 mm
Product size width	542 mm
Product size height	1125 mm
Weight (complete product w/o side packed articles)	39 kg
Packaging length	560 mm
Packaging width	1,260 mm
Packaging height	850 mm
Article gross weight	65,000 g
