THE FLOOR TECHNICIANS

Removal Grinding Scarifying
Preparation Polishing

Scarifying and Milling

Scarifying comes in various arts. Ranging from removing paint- and adhesive-residue from small surfaces upto renovation of complete parking-decks. We offer a suitable machine for each and every project.

Airtec Roto-Star 165

TM0-7.11
Removal of thermoplast on asphalt and concrete

TSR-3.5
Removal of soft layers of paint, glue and cement

SR-5
Removal of rust and paint from steel surfaces

KR-8
Light roughening of small concrete surfaces

Airtec Euro-Sprint 200

ES-200-581
Cutting out of parquet and wooden floors

ES-200-910
Rust removal and shipdeck cleaning

TSR-7.5
Fine scarifying

ET-4
Removal of rust and paint from steel surfaces

TM0-5.22
Removal of coatings

TM0-7.11
Removal of thermoplast on asphalt and concrete

STR-4
Rust removal and shipdeck cleaning

HMT-6.46
Scarifying and planing of concrete surfaces and asphalt

Airtec Roto-Tiger 2500

HMT-8.55/25
Scarifying and planing of concrete surfaces and asphalt

ET-4
Cleaning and rust removal from steel surfaces

TM0-7.15
Removal of thermoplast on asphalt and concrete

Airtec Shave-Master 320

Diamond cutting blade 250 x 2,5 mm
Cutting of concrete

Airtec Roto-Mat 320

TM0-6.22
Removal of thermoplast on asphalt and concrete

TM0-12.20
Removal of thermoplast on asphalt and concrete

HMT-8.200
Scarifying and planing of concrete surfaces and asphalt

ET-5
Cleaning and rust removal from steel surfaces

Airtec Roto-Runner 300

Diversity of scarifying wheels
There is a range of scarifying wheels available for a diversity in surfaces and usage.

Grinding and Polishing of Concrete

Concrete floors can be treated in various manners for estatical appearance or durability. Both new and old flooring can be grinded or polished. Our extensive range of machines and tools offers you every thinkable solution.

Airtec Grinding Machine

airtec
TOUGH STUFF

Airtec BS 270

PKD Split

Removal of layers of paint and thin layers of glue.

PCM

Removal of thick layers of glue and epoxy.

CA 6

Roughening of concrete and tiles and removal of glue residue.

The Swiss brand **Airtec** stands for quality and sturdiness.

Besides this machines for grinding concrete, you will find a wide range of machines for scarifying and preparation of different types of surfaces and materials.

Hand-held Scarifiers and Cupwheels

Besides large scarifying machines Overmat offers compact yet powerfull hand-held scarifiers. With the suitable range of cupwheels working up to the edge is possible.

Airtec Jet-Rotary 100

PKD 125/180

PKD 127/178

125 075 1
180 075 1

Universal diamond cupwheel
100/125/180
single or double line

Airtec Jet-Rotary 637

PKD RON 125/180

125 057 1
180 057 1

125 045 1
180 045 1

Stripping

Stripping of carpet or other types of floor covering? With its wide range of strippers and accessories, Overmat offers you the tools to finish the job. Even adhesive-residue won't be a problem!

Airtec Extendo BL-3-KIT

Airtec Powerman 1600

Wolff Durostripper

Wolff Turbostripper

Sanding and Maintaining wooden floors

Overmat offers an extensive range of machinery and accesories for floor treatment. These products perfectly combine with our Floorservice products.

Floorboy XL 300

Woodboy® 4000/32-3

Frank Gecko S - shaft 110 mm

Frank Gecko L - shaft 300 mm

**Frank Gecko Star Ø178 mm
shaft 175 mm**

**Frank Gecko Star Ø178 mm
shaft 385 mm**

Frank Viper C

Frank Cobra Classic

Woodboy® Accessories

Driving disc with cellular back + Velcro
For the attachment of pads, sanding discs and Velcro discs.

Driving disc with pin-back on buffer
For the attachment of pads and sanding discs.

Driving disc 3 cup diamond
For sanding of concrete and self leveling compound.

Parquet satellite disc 5E
For a perfect sanding and end result of among others herringbone patterns, mosaic parquet and other pattern floors. Five counter rotating disc with double bearing on a driving disc with dust holes.

Steel brush 6E
For the removal of carpet remnants, foam rubber ridges from carpet, etc.

Silicon disc
For sanding of cement based floors.

Buffing brush
For buffing of polishing wax.

Scrubbing brush
For scrubbing of stone, tiles, natural stone and synthetic floors.

Weight 10 kg
Machine weight for increasing the sanding pressure.

Vac-1 Unit
Professional durable dust extraction with by-pass cooling, incl. hose. 3 Filter system, boiler in stainless steel, contents 15 l.

Vloeistoftank
To be attached to the handle of the Woodboy® 4000/32-3. For wet cleaning of stone, tiles, natural stone and synthetic floors. Capacity 10 l.

Pads and abrasives for wooden floors

Thin Pads

Thick Pads

Sanding Belts

Double Sanding Discs

Velcro Sanding Discs

Felt Sanding Discs

White Woolen Cushion

Felt Cushion

Mesh Sanding Discs

High Performance Discs and Pad

Industrial Vacuumers

Dust free working is a must in todays industries. Besides the comfort part, it will help to protect your health. A suitable vacuum-system is therefore a necessity. Overmat offers a wide range of vacuumers to suit your grinding and sanding machinery.

Numatic NDD 900

Ronda

Numatic industrial vacuumers are specially developed for the construction industry. They perfectly combine with grinders, sanders and other construction tools. True the use of a special fine-dust collection-bag the main filter is bypassed and a clean environment for every job is guaranteed.

Ronda vacuumers meet the highest industrial standards when it comes to dust-collection. Even harmful dust types are no issue when working with the Ronda vacuumers.

Floorservice®

Our own brand Floorservice offers products for manual, professional and industrial use on wooden floors, including the necessary cleaning and maintenance products.

Hardwax-oil in 34 standard colours.

Cleaning and maintenance products for wooden and PVC floors.

Special (pre)treatment products with trendy effects and lacquers for a.o. an unfinished look.

Floorservice® Hardwax-oil

Do you wish for your parquet or Plankflooring to maintain its natural appearance? Then hardwax-oil is the only right choice. Floorservice hardwax-oil is composed of all natural ingredients such as vegetable oils and waxes. The oil deeply penetrates the wood without closing the pores. The wood therefore maintains its ability to breathe and its natural structure.

**Floorservice®
Hardwax-oil Classic**

Hardwax-oil for all types of parquet and solid floors, based on vegetable oils and waxes.
Low usage: 1 litre is sufficient for 12 - 25 m² when using 2 coats.

**Floorservice®
Color Hardwax-oil Classic**

Coloured Hardwax-oil for all types of parquet and solid floors, based on vegetable oils and waxes.
Low usage: 1 litre is sufficient for 12 - 25 m² when using 2 coats.
Available in 31 standard colours.

**Floorservice®
Hardwax-oil Pro**

Solvent-free hardwax-oil, for all types of parquet and solid floors based on vegetable oils and waxes.
Low usage: 1 litre is sufficient for 40 m² when using 1 coat.

**Floorservice®
Color Hardwax-oil Pro**

Coloured solvent-free hardwax-oil, for all types of parquet and solid floors based on vegetable oils and waxes.
Low usage: 1 litre is sufficient for 40 m² when using 1 coat.
Available in 31 standard colours.

**Floorservice®
Hardwax-oil Profile**

Oxidative drying hardwax-oil, specially developed for industrial application on parquet and solid floors.
Low usage: 1 litre is sufficient for 50 m² when using 1 coat.
Available in 34 standard colours.

The colours displayed are examples of coloured Hardwax-oil on oak rustic. The look and feel and therefore the end results strongly depend on the type of wood, the sorting and the pretreatment of it. Because wood is a natural product, these colours may vary. We recommend you carry out a test beforehand, in order to determine the colour. * Only available in Floorservice® Profile.
